

June 2017 Examinations
Grade 8 Mathematics Scope

The following areas will be covered in the examination:

Book 1

- Number theory
- Number patterns
- Geometry: angles and parallel lines
- Integers
- Rational numbers

Book 2

- Algebra pages 1-13, upto and including Distributive law
- Coordinate Geometry and Transformations: pages 38-51

It will be beneficial to revise the tests written in class since the beginning of the year. There are revision tests at the end of each chapter followed by a memo. These are an excellent revision tool.
